

Sample list of questions for selecting a dog breeder

1. What are your requirements for new owners?
2. Where do you raise your puppies?
3. How well are the puppies socialized?
4. What kind of health guarantee do you have?
5. I am looking for a PTSD service dog, do you have any experience selecting dogs as service dogs? The dog would need to be sociable, calm, confident, people-oriented, and show a good propensity for learning.
6. I don't have a preference as to male or female, would I be able to get a pick of the litter, and have you select the best puppy for me based on the traits I'm looking for? I am willing to wait for the right dog.
7. We have an absolutely amazing dog trainer that we take our current dog to obedience training for, but the way I see it, nobody knows the breed as well as the breeder. Are you available down the line for any behavioral, temperamental, etc. questions that may be related to the breed or bloodline?
